

Your Name _____

Create a Setting

Create a setting you would like to use in a story. Read through all the questions **first** and then use them to help you create your setting. This can be a real place or one you create in your imagination.

1. Does the place or area have a name? If so, write it here.

2. How could you describe the place or area? Is it in the city or country? Is it flat or hilly, dry or damp, hot or cold? Are there trees and rivers? Is it beautiful, ugly, peaceful, or scary? Is it indoors or outdoors? List some details.

3. What interesting sights could you see there? (List at least three.)

4. Do you want your setting to be one from long ago, from now, or in the future? Write your answer and tell something about that time period if it's past or future.
